VPN Access SOP (United States) v2 - Page 1

Purpose

This procedure explains how to request, set up and use the company VPN.

Scope

This document applies to employees based in the United States. It is owned by Steve Sanchez and is effective from 2025-06-21.

Rules

VPN access is granted on request and needs manager approval.

Sessions are disconnected automatically after 60 minutes of inactivity.

Personal devices may only connect if they are enrolled in device management.

VPN access is reviewed every 180 days and removed if it was not used.

VPN Access SOP (United States) v2 - Page 2

Procedure

1. Raise a VPN request in the IT service portal.
2. Wait for your manager to approve the request.
3. Install the VPN client from the company software centre.
4. Sign in with your company account and your authenticator code.

Escalation

Connection problems that last more than one hour are escalated to the network team.

Contacts

Send questions about this document by email to it-help@company.local.

Document Control

Under VPN Access SOP (United States) (version 2), the standard limit is 270 days. This is the maximum number of days between two checks of the document by its owner.

Version 2 replaces version 1. Values and thresholds were revised in the latest yearly check.
