Lost or Stolen Device SOP (Sales) v2 - Page 1

Purpose

This procedure explains what to do when a laptop or phone is lost or stolen.

Scope

This document applies to everyone working in the Sales division. It is owned by Lawrence Adkins and is effective from 2024-11-16.

Rules

A lost or stolen device must be reported to the security desk within 4 hours.

The security team locks the device remotely and disables its accounts.

In case of theft the employee also files a police report and gives the number to security.

A replacement device is issued after the report is confirmed.

Procedure

1. Call the security desk and give your name and the device details.
2. Change your password from another device.
3. File a police report if the device was stolen.
4. Request a replacement device in the IT service portal.

Escalation

Devices that held customer data are escalated to the data protection officer.

Contacts

Send questions about this document by email to security-help@company.local.

Document Control

Under Lost or Stolen Device SOP (Sales) (version 2), the standard limit is 365 days. This is the maximum number of days between two checks of the document by its owner.

Version 2 replaces version 1. Values and thresholds were revised in the latest yearly check.
