Phishing Response SOP (Sales) v1 - Page 1

Purpose

This procedure explains what to do when you receive a suspicious email.

Scope

This document applies to everyone working in the Sales division. It is owned by Christine Wright and is effective from 2025-01-23.

Rules

Do not click links or open attachments in a suspicious email.

Use the Report Phishing button in the mail client to send the message to the security team.

If you already clicked a link or entered a password, change the password and call the security desk at once.

The security team answers every phishing report within 4 hours.

Phishing Response SOP (Sales) v1 - Page 2

Procedure

1. Do not reply to the email and do not forward it to colleagues.
2. Click the Report Phishing button in your mail client.
3. If you clicked a link, change your password immediately.
4. Wait for the security team to tell you whether the email was harmful.

Escalation

Phishing that targets executives is escalated to the security manager at once.

Contacts

Send questions about this document by email to security-help@company.local.

Document Control

Under Phishing Response SOP (Sales) (version 1), the standard limit is 90 days. This is the maximum number of days between two checks of the document by its owner.

This is the first version of the document.
